

WHITE CLOUD

AGE VERIFICATION PROCESS

At White Cloud Electronic Cigarettes we have always made the prohibition of sales to minors a number one priority. As part of this commitment, we engaged LexisNexis in 2014 to assist us with identifying the age of our online consumers.

With its database of more than 78 billion public records, including government issued IDs and DMV records, LexisNexis can match information for more than 274 million U.S. consumer identities. Our custom e-commerce software allows us to utilize the power of LexisNexis to verify that our customers are of legal age, per their state laws, to purchase our products. As a result, we can ensure that we are keeping our products from reaching children and underage adults.
